- **How Many Fingers am Eye Holding Up? Assessing Vestibular-Ocular Disturbance Following Sport-Related Concussion**
Allyssa Memmini, PhD, LAT, ATC 3:30pm – 4:30pm

Symposium Objectives:

At the conclusion of the program, the Certified Athletic Trainer will:

- Describe how the vestibular ocular and vestibulospinal systems are affected following concussion.
- Identify and discuss myths and facts relative to opioids, overdoses, and overdose management.
- Evaluate current return to learn protocols and make recommendations for improvement based on a comprehensive review of existing research.
- Incorporate the recommended components of an appropriate emergency action plan to prepare for a shooter in their own institutional EAP.
- Evaluate your current return to plyometric decision making, apply current research to new decision making, create new rehabilitation programs with appropriate EBP-backed decision making.
- Identify the current NATA, Spine Injury in Sport Group (SISG), and EMS recommendations regarding management in the equipment-laden and spine-injured athlete.

According to the education levels described by the PDC, the following continuing education course is considered to be Advanced Level.
